Universities Council for Adult Education: Report on the Year 1967-1968.

Hull Univ. (England). Dept. of Adult Education.

Pub Date 68

Note-24p.

EDRS Price MF-\$0.25 HC-\$1.30

Descriptors-*Adult Educators. *Annual Reports. Course Content. Educational Innovation. Educational Radio. Educational Television. Enrollment Projections. Labor Education. Part Time Teachers. *Physical Facilities. *Statistical Data. *University Extension

Identifiers-*Great Britain

At the Annual Conference of Universities Council for Adult Education. reports centered around individual and regional accomplishments in the field as well as on general trends--exploration and innovation, the use of radio and television, the construction of buildings, and the role of the full time tutor. Heriot-Watt University, a new member. reported 1.100 enrollments in ten non residential. and nine residential. courses. In Bristol, a class in archaeology included a week-end course on "Archaeological Air Photography." in which members flew. photographed. and interpreted findings. Leeds. Keele. and Sheffield reported courses for students working for London external degrees: at Sheffield these included 17 students from industrial day release courses. Other exploratory courses included Liverpool's "family summer school" and Leicester's "Making a Teaching Film." The overall expansion of adult programs is continuing at a rate of over 6%, yearly: tutorials increased from 694 to 710. Greater effectiveness was found in using full time, rather than part time tutors, who often model evening classes after daytime ones. (Included are statistical tables showing the number of courses. meetings, enrollment, and subjects offered.) (n)

UNIVERSITIES COUNCIL FOR ADULT EDUCATION

REPORT

ON THE YEAR

1967 — 1968

\$600 4471

The Universities Council for Adult Education is indebted for the preparation of this report to Professor W. E. Styler of the University of Hull, who wishes us to state that the expressions of opinion are his own.

UNIVERSITIES COUNCIL FOR ADULT EDUCATION

OFFICERS

- Chairman: T. A. F. Noble, M.B.E., M.A., Vice-Chancellor of the University of Leicester.
- Vice-Chairman: Sir Peter Noble, M.A., Hon.LL.D., formerly Principal of King's College, The University of London.
- Treasurer: W. Burmeister, M.A., Director of the Department of Extra-Mural Studies, The University of London, 7 Ridgmount Street, London, W.C.1. (Telephone 01-636 8000).
- Honorary Secretary: Professor T. Kelly, M.A., Ph.D., F.R.Hist.S., Director of Extra-Mural Studies, The University of Liverpool, 9 Abercromby Square, Liverpool, 7 (Telephone 051-709 6022, Extension 374).
- Assistant Honorary Secretary: J. M. Y. ANDREW, M.A., Secretary to the Board of Extra-Mural Studies, The University of Cambridge, Stuart House, Mill Lane, Cambridge, CB2 1RY (Telephone 0223 56275).

MEMBERS OF THE COUNCIL (1968-69)

University of Aberdeen:

Professor J. D. Nisbet, M.A., B.Ed., Ph.D.

K. A. Wood, M.A., F.S.A. (Scot.), Director of Extra-Mural Studies, The University of Aberdeen, Taylor Building, King's College, Old Aberdeen and 16 Commerce Street, Elgin (Telephone Elgin 7186).

Bath University of Technology:

Professor K. Austwick, M.Sc., Ph.D.

K. A. C. Humphreys, M.A., M.Sc., Director of the Centre for Adult Studies, Bath University of Technology, Northgate House Bath (Telephone 0225 4276).

The Queen's University of Belfast:

Professor G. OWEN, B.Sc., D.Sc.

E. C. Read, M.A., B.Sc. (Econ.), Director of Extra-Mural Studies, The Queen's University of Belfast, Belfast (Telephone 0232 30111, Extension 268).

ALLEN PARKER, M.A., Director of Extra-Mural Studies, The University of Birmingham, P.O. Box 363, Birmingham, 15 (Telephone 021-472 1301).

University of Bristol:

Professor S. KÖRNER, M.A., Ph.D., jur.Dr.

G. CUNLIFFE, B.Sc., Director of Extra-Mural Studies, The University of Bristol, 20A Berkeley Square, Bristol, BS8 1HR (Telephone 0272 24161, Extension 251).

University of Cambridge:

L. G. Salingar, M.A.

J. M. Y. Andrew, M.A., Secretary to the Board of Extra-Mural Studies, The University of Cambridge, Stuart House, Mill Lane, Cambridge, CB2 1RY (Telephone 0223 56275).

University of Dundee:

Professor J. W. L. Adams, M.A.

A. G. Robertson, M.A., Director of Extra-Mural Studies, The University of Dundee, Dundee (Telephone Dundee 23181).

University of Durham:

E. ALLEN, M.A.

J. F. DIXON, M.A., Director of Extra-Mural Studies, The University of Durham, 32 Old Elvet, Durham (Telephone 0385 5961).

University of Edinburgh:

Professor D. Talbot Rice, M.B.E., T.D., F.S.A., M.A., B.Sc., D.Litt., Vice-Principal.

J. Lowe, B.A., Ph.D., Director, Department of Adult Education and Extra-Mural Studies, The University of Édinburgh, 11 Buccleuch Place, Edinburgh, 8 (Telephone 031-667 1011).

University of Exeter:

F. J. LLEWELLYN, Ph.D., D.Sc., Hon.LL.D., F.R.S.(N.Z.), Vice-Chancellor.

Professor T. F. Daveney, B.A., Professor of Adult Education and Director of Extra-Mural Studies, The University of Exeter, Gandy Street, Exeter (Telephone 0392 77911).

University of Glasgow:

Professor T. Neville George, Ph.D., D.Sc., D.és Sc., F.R.S., F.R.S.E., F.G.S.

NORMAN DEES, B.A., Director of Extra-Mural Studies, The University of Glasgow, 57/59 Oakfield Avenue, Glasgow, W.2 (Telephone 041-339 8855, Extension 392).

Heriot-Watt University:

Professor E. O. Taylor, D.I.C., B.Sc., Department of Electrical and Electronic Engineering, Heriot-Watt University, Mountbatten Building, 31-35 Grassmarket, Edinburgh, 1 (Telephone 031-225 8432).

University of Hull:

Sir Brynmor Jones, B.Sc., Ph.D., Sc.D., LL.D., F.R.I.C., Vice-Chancellor.

Professor W. E. Styler, M.A., Director of the Department of Adult Education, The University of Hull, 195 Cottingham Road, Hull (Telephone 0482 49411).

University of Keele:

Professor Roy Shaw, B.A., Director of Adult Education, The University of Keele, Keele, Staffordshire, ST5 5BG (Telephone 0782-71 313).

University of Leeds:

J. W. BELTON, Ph.D., D.Sc.

Professor S. G. RAYBOULD, B.Sc.(Econ.), Ph.D., Hon.LL.D., Professor of Adult Education, The University of Leeds, Leeds, LS2 9JT (Telephone 0532 34874).

J. T. GLEAVE, M.A., M.Ed., Director of Extra-Mural Courses and Classes.

University of Leicester:

T. A. F. Noble, M.B.E., M.A., Vice-Chancellor.

Professor H. A. Jones, M.A., Vaughan Professor of Education and Head of the Department of Adult Education, The University of Leicester, 6 Salisbury Road, Leicester, LE1 7QR (Telephone 0533 28424).

University of Liverpool:

Professor K. Muir, M.A.

Professor T. Kelly, M.A., Ph.D., F.R.Hist.S., Director of Extra-Mural Studies, The University of Liverpool, 9 Abercromby Square, Liverpool, 7 (Telephone 051-709 6022, Extension 374).

University of London:

G. H. BOLSOVER, O.B.E., Ph.D.

W. Burmeister, M.A., Director of the Department of Extra-Mural Studies, The University of London, 7 Ridgmount Street, London, W.C.1 (Telephone 01-636 800).

Loughborough University of Technology: Representatives to be appointed.

University of Manchester:

Professor H. S. Lipson, D.Sc., M.A., M.Sc.(Tech.), F.Inst.P., F.R.S.

Professor E. G. Wedell, B.Sc. (Econ.), Director of Extra-Mural Studies, The University of Manchester, Manchester, M13 9PL (Telephone 061-273 3333).

C. D. Legge, B.A., Deputy Head of the Department of Adult Education.

University of Newcastle:

Senate representative to be appointed.

E. W. Hughes, M.A., B.Litt., LL.B., Director, Department of Adult Education, The University, Newcastle upon Tyne, NEI 7RU (Telephone 0632 28511, Extension 400).

University of Nottingham:

Professor R. PEERS, C.B.E., M.C., M.A., D.Litt., J.P.

Professor H. C. Wiltshire, M.A., Director, Department of Adult Education, The University of Nottingham, 14-22 Shakespeare Street, Nottingham (Telephone 0602 43022).

K. H. THORNTON, M.A., B.C.L., Acting Director.

Page 2

University of Oxford:

J. B. Bamborough, M.A.

F. W. Jessup, M.A., LL.B., F.S.A., Secretary of the Delegacy for Extra-Mural Studies, The University of Oxford, Rewley House, Wellington Square, Oxford (Telephone 0092 57203).

University of Reading:

A. A. H. Butters, M.A. (Senior Assistant Registrar), The University of Reading, Reading (Telephone 0734 85123).

University of St. Andrews:

Professor K. J. Dover, St. Salvator's College, St. Andrews.

J. C. GEDDES, M.A., Director of Extra-Mural Studies, The University of St. Andrews, College Gate, St. Andrews (Telephone St. Andrews 1540).

University of Sheffield:

Professor S. Pollard, B.Sc.(Econ.), Ph.D.

Professor Maurice Bruce, B.A., F.R.Hist.S., Director of Extramural Studies, The University of Sheffield, Broomspring House, 85 Wilkinson Street, Sheffield S10 2GS (Telephone 0742 77758).

University of Southampton:

Professor W. I. Lucas, M.A., Ph.D.

H. J. TRUMP, M.A., Director of the Department of Extra-Mural Studies, The University of Southampton, Southampton (Telephone 0703 56331).

University of Strathclyde:

Professor W. W. Fletcher, B.Sc., Ph.D., F.L.S., F.I.Biol., F.R.S.E., Director of Extension Studies.

J. LITTLE, B.Sc., Department of Natural Philosophy, The University of Strathclyde, Glasgow, C.1. (Telephone 041-552 4400).

University of Surrey:

J. P. Freyne, B.Sc. (Econ.), Director of General Studies, Department of Humanities and Social Sciences, University of Surrey, Battersea Park Road, London, S.W.11. (Telephone 01-622 9191).

University of Sussex:

R. C. P. MUTTER, M.A.

Professor E. M. Eppel, M.A., M.Ed., Director of Continuing Education, University of Sussex, Falmer, Brighton, Sussex (Telephone 0273 66755).

The New University of Ulster:

Dr. W. T. Ewing, M.A., LL.B., Registrar, The New University of Ulster.

E. Rhodes, M.A., Senior Lecturer in Adult Education, The New University of Ulster, Coleraine, County Londonderry, Northern Ireland (Telephone Coleraine 4141).

University of Wales:

University Extension Board:

J. Gareth Thomas, M.A., Secretary of the Extension Board, The University of Wales, University Registry, Cathays Park, Cardiff (Telephone 0222 22656).

University College of Wales, Aberystwyth:

ALWYN D. REES, M.A., Director of Extra-Mural Studies, The University College of Wales, 9 Marine Terrace, Aberystwyth (Telephone Aberystwyth 7616).

University College of North Wales, Bangor:

Emeritus Professor D. W. T. JENKINS, M.A.

ALUN LLYWELYN-WILLIAMS, M.A., Director of Extra-Mural Studies, The University College of North Wales, Bangor (Telephone Bangor 2501, Extension 487).

University College, Cardiff:

Professor Brinley Thomas, O.B.E., M.A., Ph.D.

Leslie Jones, M.A., J.P., Director of Extra-Mural Studies, University College, Cardiff, 40 Park Place, Cardiff CF1 3BB (Telephone 0222 43966).

Page 3

University College of Swansea:

IVOR ISAAC, D.Sc., Ph.D., F.L.S.

IEUAN M. WILLIAMS, M.A., Director of Extra-Mural Studies, The University College of Swansea, Berwick House, 6 Uplands Terrace, Swansea (Telephone 0792 57168).

Committee of Vice-Chancellors and Principals: J. S. FULTON, M.A.

ASSOCIATE MEMBERS

University College, Cork:

Professor T. CAREY, Ph.D., M.A.

Mr. SEAN MURPHY, B.A., Department of Adult Education, The University College, Cork.

University of Hong Kong:

R. A. WILLIAMS, M.A., Director of Extra-Mural Studies, The University, Hong Kong.

St. Francis Xavier University, Nova Scotia:

Revd. J. N. MacNeil, J.C.D., Director, Extension Department, St. Francis Xavier University, Antigonish, Nova Scotia.

Rhodesia:

The Director, Institute of Adult Education, The University College of Rhodesia, Salisbury, Rhodesia.

ANNUAL REPORT 1967-68

THE COUNCIL

The Annual Conference was held in the University of Belfast. Professor E. E. Evans of the University Department of Geography opened with a description of Ulster as a region, and this was followed by discussion of its adult education provision. Professor A. J. Allaway outlined his experience over thirty years as Director of Extra-Mural Studies in Belfast and as Head of the Department of Adult Education in Leicester, and the conclusions about University adult education it had led him to formulate. Mr. G. H. L. Schouten, Secretary of the European Bureau of Adult Education, spoke on adult education in Europe. The Conference also discussed degrees by part-time study and a number of interesting ventures which had been specially mentioned in the annual reports of Departments.

At the Annual General Meeting an amendment providing for the creation of a new office, that of Honorary Assistant Secretary, was approved and Mr. J. M. Y. Andrew of Cambridge University was elected to fill it. Mr. W. Burmeister of London University was elected Honorary Treasurer in place of Professor H. C. Wiltshire, who was leaving Britain for two years to take up a commitment in Ghana.

A special meeting was held in London to discuss 'New Universities and Extra-Mural Work'. In addition to universities which were members of the Council representatives were present from Aston, Brunel, City, East Anglia, Essex, Heriot-Watt, Lancaster, Loughborough, Salford, Surrey, Sussex, Ulster, Warwick and York. Mr. K. A. C. Humphreys of Bath, Mr. E. M. Eppel of Sussex, Professor Phillips Griffiths of Warwick, Mr. R. L. Cannell of Loughborough and Professor Roy Shaw of Keele, spoke about the position of their respective universities in relation to extra-mural work. A full day's discussion followed in which the advantages of a special department to promote extra-mural studies, other possible forms of organization, specialization in particular fields of activity and finance were discussed. It is pleasant to report that since the meeting, Surrey, Sussex, Loughborough, Heriot-Watt and Ulster have become members of Council and that Mr. Eppel has been appointed Director of Continuing Education in Sussex with the title of Professor.

A small group of members of the Council met the Parliamentary Under-Secretary of State for Education, Mr. Denis Howell, M.P., in the House of Commons on 10th April. A helpful general discussion of the present position of adult education took place, including the possibility of the appointment of a Committee of Inquiry. The Council's representatives drew Mr. Howell's attention to the harm being done to the work of Local Education Authorities in adult education by the economies they were being forced to undertake.

The Committee for University Assistance to Adult Education in H.M. Forces drew attention in its Annual Report to the fact that the postponement of plans to set up a Royal Defence Academy had left the future shape of officer education and of the Staff/Promotion examination to be decided, but that it was likely that there would be a considerable need for university assistance at the pre-Staff College stage. The total volume of work in the Services was maintained in spite of the fact that some of the universities substantially engaged, notably Bristol and Southampton, had serious staffing difficulties as a result of the uncertain financial situation. Happily the first steps have been taken towards resolving this problem.

The matter mainly considered by the International Sub-Committee during the year was the arrangement of a Council of Europe Conference to be held in Liverpool in the summer of 1969. At this Conference the theory and practice of adult education in Europe will be reviewed and Professor Thomas Kelly will act as director.

Negotiations which took place with the publishers, David and Charles, Ltd., make it possible to announce that a new adult education journal sponsored by the Council will commence publication in 1969.

Mr. J. F. Dixon was appointed during the year to succeed Professor T. F. Daveney as Director of Extra-Mural Studies in the University of Durham. Mr. Alan Thornton, whom we are glad to have with us again after his period abroad, is Acting Director at Nottingham during Professor Wiltshire's absence and takes his place on the Council.

Since this is the last Annual Report to appear while Mr. T. A. F. Noble is Chairman of the Council, it is appropriate that our gratitude for the close attention he has given to the Council's affairs during his four years of office should be recorded.

THE PATTERN OF EXPANSION

The statistical tables at the end of this Report show that expansion is continuing at a rate of over six per cent per annum. This year, unlike last when Ba' 1 and Strathclyde were added to the list of universities for which figures were given, there are no new additions to swell the total. Next year the new member universities will appear in the tables and will add to the national totals of courses, class meetings and enrolments. Altogether this suggests that only a few years ahead this Annual Report will record the arrangement of over 10,000 courses for which over 200,000 students will enrol.

Of the new members only the Heriot-Watt University was able to supply statistical information about the work it undertook during the year. It could not be included in the tables but it may be useful to summarize it here, to indicate what the effect of the acquisition of new members is likely to be. Heriot-Watt organized nineteen courses of which nine were residential. Altogether they attracted over 1,100 enrolments. Most of the courses were in various branches of applied science but two were on economic subjects. One course, on 'Power System Developments', was repeated in Newcastle, Wrexham, Liverpool, Birmingham and London.

A plan adopted for the development of extra-mural work by the University of Surrey is wider in conception. In addition to post-experience courses it proposes to offer courses on 'Science for the Layman' and courses in Art and Music and the Humanities and Social Sciences. As a first step a tutor/organizer is to be appointed to help to initiate the programme.

The widening of the membership of the Council and the introduction of new types of courses, often in subjects not previously attempted, means that the Council's work is becoming very different from what it was only a short time ago, when it was almost solely in the traditional liberal adult education supported by the Department of Education and Science. Probably the ideal state of affairs will be achieved when the Council represents all the universities and university institutions which provide facilities for part-time study by adults.

While new developments are reported each year it is interesting to note that the number of Tutorial Classes has again increased, this year from 694 to 710. There is, however, a marked unevenness in the provision of classes in this category, illustrated by the fact that the combined totals of the four leading universities, London, Leeds, Durham and Hull, contribute more than fifty per cent of the total. A new type of provision which is appearing, described in some detail in the Report of the Nottingham Department, is that of two-year classes. Ten universities also include full-time courses in their programmes. It seems probable, therefore, that the form of the statistical tables should be changed in future reports to enable a more accurate picture of the types of work in which member universities are engaged to be presented. At present full-time courses are listed in the columns for courses of 20+ meetings and there is no special provision for two-year courses.

EXPLORATION AND INNOVATION

While the central core of the programmes of Departments consists of classes in subjects steadily in demand, attended by many students who continue their study over a number of years, nearly every Department is able to report new areas of enterprise. Some of these are geographical, illustrated by the developing activities by the Southampton Department in the Channel Islands and by Liverpool in the Isle of Man. Also geographical in a sense, but interesting from the point of view of the subject and the way it was dealt with, was a course provided by Bangor University College in Nant Peris. This is a small hamlet which lies above Llanberis at the foot of Snowdon, with a scattered population that probably does not exceed 200. The course title should properly be given in Welsh, 'Y Beibl a Chefydd Heddiw' ('The Bible and Religion Today'). Twenty-seven people attended and it may be claimed that the course illustrated, through the agency of the Bangor Department, the capacity of Departments generally to provide teachers of the highest scholarship for those who wish to learn, even in the most remote communities.

Equally striking, although very different, is the description in the Bristol Report of a substantial body of work in Archaeology which included a week-end course on 'Archaeological Air Photography', in which 'members fly, photograph and interpret; and even the pilot is our own resident tutor in Somerset'.

Sometimes courses are a result of local preoccupations. It seems natural and appropriate that Keele should provide a residential course in Ceramics, described as bringing together 'a number of students actively engaged in research, especially in the field of nineteenth century pottery'. Similarly it is appropriate that Hull should report developments in the provision of courses for dock workers. During the year sixty newly elected shop stewards were released from work to take one week courses at the University and a two-year day release course was asked for by the Port Employers and the Transport and General Workers' Union.

Leeds, Keele and Sheffield report courses for students working for London external degrees. That at Sheffield was unusual in that it accepted not only forty-one degree students but also seventeen students from industrial day release courses for a residential course at the University. The members of the Department's staff who took part in this experiment generally agreed that it was the most worthwhile residential course in which they had ever engaged, and the Sheffield Report remarks that 'the application of both groups to their studies was a most encouraging justification of the enterprise'.

Liverpool experimented by holding its first 'family summer school' in collaboration with the West Lancashire and Cheshire W.E.A. It was held at the Glynllifon Agricultural College in Caernarvonshire and the children were looked after while their parents were engaged in seminars and private study. This experiment was a success and is likely to be repeated.

Among numerous study tours abroad, conducted this year under the discouraging effect of the restricted foreign travel allowance, Southampton arranged a study visit for twelve shop stewards to Hamburg to follow a programme arranged by the West German trade union movement. The students' costs were met by their firms and the visit was regarded as an extension of the studies in the day release course they were attending.

Among other courses which may be mentioned was one provided by Leicester on 'Making a Teaching Film', which was attended by R.A.F. and Army officers as well as civilians. The Manchester Report summarizes the results of its five year experiment in attempting to correct the narrow specialization of degree work through its courses called 'Wider Horizons'. Science graduates proved to be much more ready to study the Arts than Arts graduates were to study the Sciences. In all twenty-one courses had been held, twelve in Arts subjects, six in Science and three in other subjects, and 475 students attended them.

The Cardiff Department undertook summer courses designed to survey Glamorgan and Monmouthshire Commons in conjunction with the Registration of Commons Act. These were serious scientific surveys of interest to the Nature Conservancy, the County Naturalists' Trusts and the Society for the Promotion of Nature Reserves. In addition to detailed study of the geology, vegetation, bird life, entomology and the human uses of the Commons a collection of colour slides was made.

In London the chief innovation during the year was the devising of systems, with the aid of the University Organization and Methods Department, to handle information about the nine hundred classes in the Department's programme and about the educational backgrounds, needs and motives of students. A new type of enrolment form will be introduced and a questionnaire sent to a ten per cent sample of students. As the Department's Report remarks, already a revolution in office procedure has been effected and has helped to overcome the problem of 'an unprecedented shortage of clerical and typing staff'. No doubt other large departments will be glad to learn from London's experience.

RADIO AND TELEVISION

A number of Departments report the arrangement of talks on Local Radio. The most advanced, up to the present, is Nottingham, which gave six courses during the year which were supplemented by meetings between listeners and tutors. For three of the courses supporting literature was written and published. Keele arranged three experimental series of talks on Radio Stoke and a listeners 'talkback' at the University. Liverpool arranged a continuous series for Radio Merseyside on local studies which were given by members of the University staff on Sunday afternoons. Cardiff mentions close collaboration with the broadcasting authorities, but does not give details.

In Leeds and Sheffield arrangements for participation in Local Radio were made for the 1968-69 session. Leeds plans to give an experimental programme of radio talks in association with the W.E.A. and the Swarthmore Educational Centre. Sheffield plans to give talks of two kinds, informal and formal. The formal type will involve the arrangement of follow-up with students and the preparation of outline syllabuses and reading lists.

In connection with television Bath reports that the Centre for Adult Studies is responsible for the Bath Educational Television Service; staff has been appointed and the basement of Northgate House converted into a studio. Glasgow reports that it helped, through the use of the University Television Service, to provide teaching material for classes both inside and outside the city, and arranged a class on 'Television and the Viewer' in which the students wrote scripts, provided illustrations and music, and presented the programmes. Hull used its University Television studio in its Diploma course in the Teaching of Adults, both to give the students experience of television and, through play-back, to see and hear themselves in action.

BUILDINGS

It is not possible to think of any more suitable title for this section, although the places specially provided by universities for adult education are so markedly centres of life and activity that it seems very inadequate. One is reminded of the old saying that a college is not only a building but a community of learning. The Liverpool Report comments on the value of its centre in The Royal Institution, but says it is the only one available in its extra-mural region. It remarks that 'the establishment of a suitably equipped adult education building in every centre of population would lighten the administrative load on course organizers, facilitate co-operation between the University and other providing bodies, stimulate recruitment, and bring in a wider range of subjects and students'.

A similar quotation, although on a happier note, may be given from the Nottingham Report.

'Almost two-thirds of the classes provided by the Delegacy now meet in the Adult Education Centres in Boston, Derby, Lincoln, Loughborough, Matlock and Nottingham. This is partly a result of the better physical conditions provided in these Centres, partly a result of better staffing and partly the simple effect of concentrating classes in one building so that success breeds success. The value of such Centres is now indisputable, so that it is doubly pleasant to be able to report two important developments during the session. First, the Kesteven Education Authority has been able, in spite of financial difficulties, to provide premises for a Centre in Stamford which though small should be attractive and comfortable; and the University has after prolonged negotiations completed the purchase of the Foresters' building at the rear of the Adult Education Centre in Shakespeare Street and fronting on to Peachy Street. This will provide much-needed space for the extension of the Nottingham Centre.'

Sheffield reports its removal to its new headquarters in Broomspring House, equipped with a library and teaching annexe, after twenty-one years in what Professor Bruce has called 'the crypt-like rooms' in St. John's Church. Cardiff reports a similar change in its fortunes; it is now housed in Park Place in a building which provides accommodation for members of the full-time teaching staff, a library and a lecture room. Bath is able to report an extension of Northgate House and a notable improvement in its dining and kitchen facilities as a consequence. Durham now has a small but valuable centre in Stockton.

The Manchester Report outlines the latest phase in what may be called the saga of Holly Royde, which must justify the rather cautious claim that the recently completed extensions have made it 'probably one of the most exciting residential colleges in Britain'. The main room in the old house, members of Council will be happy to learn, has been renamed 'The Waller Room'. The extensions have provided a good number of new study bedrooms and some additional teaching rooms.

Page 9

Finally it should not be forgotten that one of the functions of extra-mural departments is not only to take the university to the people but to bring the people to the university. The Birmingham Report, echoing statements that have been made from time to time for at least half a century, observes that 'one may look forward, perhaps, to the eventual time when it is generally accepted that men and women, from whatever walk of life, ought to spend at least an occasional few weeks as adult students on a university campus'.

THE CONTRIBUTION OF THE FULL-TIME TUTOR

Much of the work described in the two sections on 'Exploration and Innovation' and 'Radio and Television' has been undertaken by full-time staff. It is the small corps of full-time tutors, in fact, that gives British university adult education its particular character. North American universities may have hundreds of thousands of students and may administer budgets which make British Departments of Extra-Mural Studies look puny in comparison, but in general they lack teachers who are wholly committed to adult education. The consequence is, as numerous Americans have pointed out, that too frequently the work of the University Evening College is modelled on the work of the university in its day courses. While we have much to learn from the North American universities we should be fully aware of the great advantages our professionally committed full-time tutors give in discovering the educational needs of adults and deciding what methods are best to satisfy them. Their profession has now existed for over fifty years and has included many people who have subsequently achieved distinction in other fields of academic and intellectual life. Collectively these three or four generations of full-time tutors may be held to have helped to create, and to uphold, what Mr. Raymond Williams called, in The Guardian on 18th September last, an 'idea of public education, in which the whole of society is seen as a learning process, and in which, consequently, access is open, not only for all people but for all their questions, across the arbitrary divisions of quotas and subjects'.

The Report of the Birmingham Department makes an apposite reference to the idea which Mr. Williams describes. It remarks that 'among university departments an extramural department is in the special position of housing under one roof colleagues in a wide variety of academic disciplines. We should be failing in our task if we did not make full use of this opportunity for collaboration'. The report also points out that 'The interests of adults do not fall into convenient subject-divisions: they continually overlap the traditional boundaries between academic disciplines. To this perennial fact there is now added the effect of the growth of knowledge and the implications of advances, especially in science and technology, for other subjects. Thus the Staff Tutor in Geography writes of the implications for the geographer of technological advances such as the recording of global data by satellites or the discovery and exploitation of North Sea Gas!'

The Heads of a number of departments have supplied special information for this Report on the recent work of their full-time teaching staff. Unfortunately it is not possible to give more than the general points that emerge, with some illustrations.

1. The volume of work undertaken by a Department is largely dependent on its full-time staff.

The Director in Bristol provided a quantitative estimate: 'as far as Bristol is concerned 515 of the 605 courses reported to you would not have existed if it had not been for the full-time staff which has conceived, initiated, created, organized and publicised them'.

2. Full-time tutors give a Jepartment great flexibility in meeting demands from outlying areas and in new fields of activity.

The Director in Glasgow describes the formation of a Council of Social Service in the island of Tiree as a result of the work of a resident tutor and his class. The Director

in Liverpool writes 'a great deal of work undertaken by full-time tutors is of a kind which would be unlikely to be undertaken by part-time tutors just because the full-timers are more skilled at the job, but there are also pretty sharp limitations of time and place on what part-timers are willing to do. Most of our day-time courses outside Liverpool are done of necessity by full-time staff, and the same is true of courses, whether by day or by night, at some of the more remote centres . . . '

The Acting Director at Nottingham points out that the burden of the completely new Local Radio courses fell on the full-time teaching staff. In Keele a staff tutor was the prime mover in the establishment of a certificate course in Local History. The Cambridge Secretary says that the development of local and environmental studies in the various counties in his area has been a result of the work of full-time tutors.

3. Full-time tutors stimulate the demand for their subjects and this usually leads to an expanded programme of work in them.

The Director in Swansea says that the now considerable and varied programme of industrial day-release work has been the result of the work of two full-time tutors. A number of Departmental heads, in fact, mention industrial day release as a field of activity in which full-time tutors necessarily play a major part.

The Director at Birmingham gives a quantitative illustration of the effects of the appointment of a Staff Tutor in Social Study: 'When the Staff Tutor was appointed, there were nine courses for social workers, with an enrolment of 171... by 1967-68 the number of such courses had increased to thirty-six, with an enrolment of 683...'.

4. The work of individual staff tutors often becomes personally creative, they make particular contributions as public teachers in particular geographical areas or in particular fields of study.

The best illustration that could be provided of this, if it were possible, would be to reproduce the outline supplied by the Acting Secretary of the Oxford Delegacy, who names each staff tutor and describes the work in which he or she is engaged. It is obvious from this that each tutor has established a network of educational relationships in a field of study of special interest to him, or her. The Director in Birmingham says that the work of a staff tutor in Theology led to the establishment of the University Institute for the Study of Worship and Religious Architecture. A staff tutor in Botany in Durham has developed a detailed plant mapping project in Upper Teesdale with the aid of her students; this will take seven or eight years to complete.

5. The full-time tutor devotes much more time and thought to the needs and learning situations of adults than can be expected from part-time tutors.

One of the perennial problems of adult education is the class which consists of people who are diverse in educational background and learning ability. The Director at Cardiff describes how this situation has been met in the study of Law.

'By its nature an adult class contains students of varying ability and standards of formal education. Some have greater difficulty than others in mastering detail or in reducing the bigger text-book or subject to an intelligible compass. The Tutor in Law has overcome this problem by preparing, in the majority of cases, duplicated notes on such subjects as Courts and Procedure, The Criminal Justice Act, Constitutional Law, History of English Law and Equity. In special cases note-books on Contract and Negligence have been printed. These notes serve two, if not three, purposes.

They reduce the subject to manageable compass and train the student, by example, in what is difficult for some, the art of summarised facts. It also raised the level of teaching. The exposition period could be reduced because the whole subject set for the occasion was laid out for constant reference before the students, and so the tutor could cope freely with individual difficulties. Above all it allowed the tutor to concentrate on training the students to think on the principles not merely to collect information.'

6. Full-time staff make a special contribution where a Department has a centre or college for adult education in its charge.

A number of Directors make the obvious point that in running and developing a centre for adult education the Warden has a major role to play. In a more general way the Secretary of the Cambridge Board describes the contribution made by full-time staff to the work of Madingley Hall; the courses there, he writes, 'are all planned by the full-time staff, administration and teachers in consort, and it would be impossible either to plan or direct them successfully with only part-time help'.

7. Full-time staff are invaluable in counselling adult students.

This refers to a feature of adult education which is likely to become more important in the future than it has been up to the present. As the Head of the Leicester Department writes, referring particularly to the Wardens of Vaughan College and Nazareth House: 'This is an important function, chiefly because there is no other counselling service available for adults, and it is a highly professional job'.

8. Full-time work in adult education often leads to important research projects and publications which would be impossible except in the context of adult education.

The Acting Director at Sheffield draws attention to the research projects developing in connection with industrial day-release courses. They include studies of the employment of women in the West Riding for the Department of Economic Affairs and the changing holiday pattern in the coal mining industry for the National Coal Board. A number of examples were given by several Directors of important work in local history and archaeology by staff tutors and their classes. Finally we might note testimony from another source, the Preface of Mr. Edward Thompson's *The Making of the English Working Class*, recently published as the 1,000th PELICAN: 'I have . . . learned a great deal from members of my tutorial classes, with whom I have discussed many of the themes treated here'.

OBITUARY

With regret it is necessary to record the deaths during the year of four people, each of whom made a notable contribution to adult education. H. P. Smith was Assistant Secretary of the Oxford University Extra-Mural Delegacy for thirty-six years and later Secretary of the Oxford Tutorial Classes Committee. G. H. Pateman was the first Secretary of the Eastern District W.E.A. and later Assistant Secretary of the Cambridge University Board of Extra-Mural Studies: he held each office for a period of twenty years. Emrys Jenkins, who had just retired, was a staff tutor for Bangor University College for over thirty years. P. J. Pitman, Secretary of the Southern District W.E.A. and Joint Secretary of the Southampton University Joint Committee, was killed in a car accident after visiting a class.

^{*} During the year the former St. Andrews department in Queen's College, Dundee, passed to the University of Dundee, and a new department was established in St. Andrews.
